Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Community Foundation for Mississippi, Inc. and Subsidiaries (the "Foundation") which comprise the consolidated statement of financial position as of March 31, 2021, and the related consolidated statements of activities, functional expenses and cash flows for the year then ended and the related notes to the consolidated financial statements (collectively, the "consolidated financial statements").

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Foundation as of March 31, 2021, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 11, 2022, on our consideration of the Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Foundation's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Foundation's internal control over financial reporting and compliance.

Report on Summarized Comparative Information

We have previously audited the Foundation's March 31, 2020 consolidated financial statements and we expressed an unmodified audit opinion on those audited consolidated financial statements in our report dated September 10, 2020. In our opinion, the summarized comparative information presented herein as of and for the year ended March 31, 2020 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

The Community Foundation for Mississippi, Inc. (the "Foundation"), a nonprofit, community corporation, was created by and for the people of 22 counties throughout the state of Mississippi to help charitable donors establish permanent giving funds that reflect individual philanthropic interests while also making a long-term, positive impact on the community.

In December 2015 and December 2016, the Foundation formed CFGJ Properties, LLC and CFGJ Properties II, LLC, respectively, collectively ("the LLC's"), pursuant to the Revised Mississippi Limited Liability Company Act. The Foundation is the sole member of the LLC's. The LLC's were created as a vehicle for the Foundation to receive charitable donations in the form of real property.

Basis of Presentation

The Foundation's financial statements are presented in accordance with accounting principles generally accepted in the United States of America, which requires the Foundation to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of the Foundation's management and the board of trustees.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, where by the donor has stipulated that resources be maintained in perpetuity. Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the consolidated statements of activities.

Use of Estimates

The preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Principles of Consolidation

The consolidated financial statements include the accounts of the Foundation and the LLC's. All material intercompany items and transactions have been eliminated in consolidation.

Years Ended March 31, 2021 and 2020

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Continued

Money Market Funds

Money market funds include highly liquid mutual funds that invest in short-term securities. The funds' objectives are to maintain fair market values at \$1 per share.

Investments

The Foundation's investments are measured at fair value in the consolidated financial statements. Investment income or loss consists of realized and unrealized capital gains and losses and interest and dividends, less external investment expenses, and is included in the consolidated statements of activities as increases or decreases in unrestricted net assets unless the income or loss is restricted by donor or by law.

The Foundation's investments consist of equity and fixed income securities and timber rights. The Foundation desires to maintain a diversified mix of assets and maintains an investment policy that is monitored by management and the Investment Committee.

Equipment and Furnishings

Equipment and furnishings are stated at cost, less accumulated depreciation. Depreciation is provided using the straight-line method over the estimated lives of the assets. It is the policy of the Foundation to capitalize all property and equipment purchases with a minimum useful life of one year and a minimum cost of \$500.

Amounts Held for Others Under Agency Transactions

The Foundation accounts for amounts held for others under agency transactions in accordance with Accounting Standards Codification ("ASC") 958-605, *Transfers of Assets to a Not-For-Profit Entity or Charitable Trust That Raises or Holds Contributions for Others* ("ASC 958-605"). This standard establishes requirements for transactions in which a community foundation accepts a contribution from a donor and agrees to transfer those assets, the return on investment of those assets or both to another entity that is specified by the donor. ASC 958-605 requires that if a not-for-profit organization establishes a fund at a community foundation with its own funds and specifies itself or its affiliate as the beneficiary of that fund, the community foundation must account for the transfer of such assets as a liability. The Foundation refers to such funds as "amounts held for others under agency transactions".

Net Assets

Net assets with donor restrictions are those which have been restricted by donors, depending upon the terms of the gift. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the consolidated statements of activities as net assets released from restriction. Gifts whose restrictions are met in the same reporting period are reported as net assets without donor restrictions.

COMMUNITY FOUNDATION FOR MISSISSIPPI, INC. AND SUBSIDIARIES
Years Ended March 31, 2021 and 2020

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Continued

The bylaws of the Foundation include a variance provision giving the Board of Trustees the responsibility and authority whenever any restriction or condition on the distribution of funds becomes, in effect, unnecessary, incapable of fulfillment or inconsistent with the charitable, educational and scientific needs of the State of Mississippi, to modify any restriction or condition placed on the distribution of funds and to apply the whole or any part of the principal or income of funds as in its judgement is necessary to serve more effectively the charitable, educational and scientific purposes of the Foundation. Based on this provision, all contributions and assets not classified as with donor restrictions are classified as without donor restrictions.

Income Taxes

The Foundation is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code.

Contributions

Contributions are recognized as revenue when they are received or unconditionally promised.

The Foundation reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. Noncash contributions are recorded at estimated fair value on the date of the gift.

Contributions of services are recognized if the services received (a) create or enhance nonfinancial assets or (b) require specialized skills, are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation.

Grant Revenue

The Foundation receives grant income from various organizations. The Foundation recognizes grant revenue as the conditions in the grant agreement are met. The Foundation recognized \$9,762,360 and \$1,525,000 of grant income from various organizations in 2021 and 2020, respectively.

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in the statements of activities. The statements of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs, such as grants and scholarships, program expenses and conferences and meetings, have been evaluated for allocation among the program and supporting services benefited. These expenses have been determined to relate solely to program services. Program expenses are expenses paid through the funds that relate to the specific charitable purpose of each fund. The remaining expenses are allocated annually based on management's estimates of the time incurred or usage of expenses toward program, fundraising, and management and general.

Summarized Financial Information

The consolidated financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended March 31, 2020, from which the summarized information was derived.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements. These reclassifications had no effect on previously reported change in net assets or net assets.

Recent Accounting Pronouncements

In June 2018, the FASB issued ASU 2018-08, Not-for-Profit Entities (Topic 958): *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. This guidance clarifies and improves the scope and the accounting guidance for contributions received and contributions made, in order to reduce diversity in practice for grants and other similar contracts. For contributions (nonreciprocal transaction), an entity should follow the guidance in ASC 958-605 Not-for-Profit Entities - *Revenue Recognition*, and for exchange (reciprocal) transactions an entity should follow other guidance. The Foundation adopted the standard on April 1, 2019 applying the modified retrospective method. The adoption of this new accounting guidance did not have a material impact on the Foundation's consolidated financial statements.

In September 2020, the FASB issued ASU 2020-07, Not-for-Profit Entities (Topic 958): *Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. This guidance requires a not-for-profit organization to present contributed nonfinancial assets as a separate line item in the statement of activities, apart from contributions of cash or other financial assets. The new standard requires a not-for-profit to disclose contributed nonfinancial assets recognized within the statement of activities disaggregated by category that depicts the type of contributed nonfinancial assets. The new standard requires a not-for-profit to disclose qualitative information about each identified category regarding whether the contributed nonfinancial assets were monetized or utilized during the reporting period. For contributed nonfinancial assets utilized, the organization must disclose a description of the programs or other activities in which those assets were used. The new standard also requires that disclosures be made regarding the policy for monetizing rather than utilizing contributed nonfinancial assets, a description of any donor-imposed restrictions associated with the contributed nonfinancial assets, the valuation techniques and inputs used to arrive at a fair value measure in accordance with ASC Topic 820 *Fair Value Measurement*, the principal market (or most advantageous market) used to arrive a fair value measure if it is a market in which the recipient not-for-profit is prohibited by a donor-imposed restriction from selling or using the contributed nonfinancial assets. The standard is effective for the Foundation on April 1, 2022, with early adoption permitted. The Foundation is currently evaluating the effect that the updated standard will have on its consolidated financial statements.

These contributed investments were subsequently sold and the resulting proceeds of the sales are included in contributions in the consolidated statement of activities.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 3. Continued

During the fiscal year ended March 31, 2020, investments with total fair market values of \$1,440,451 were contributed to the Foundation. These contributed investments were subsequently sold and the resulting proceeds of the sales are included in contributions in the consolidated statements of activities.

Note 4. Fair Value Disclosures

ASC 820 establishes a framework for measuring fair value and establishes a hierarchy that categorizes and prioritizes the sources to be used to estimate fair value. ASC 820 also expands financial statement disclosures about fair value measurements. Under ASC 820, fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. ASC 820 also establishes a three-tier hierarchy for inputs used in measuring fair value, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Directly or indirectly observable inputs other than Level 1 prices, such as quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (for example, interest rates and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks and default rates); or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities would include financial instruments whose value is determined using pricing models, discounted cash flow methodologies or similar techniques, as well as for which the determination of the fair value requires significant management judgment or estimation.

Financial assets and financial liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. Management's assessment of the significance of a particular input to the fair value measurements requires judgment, and may affect the valuation of assets and liabilities being measured and their placement within the fair value hierarchy.

Assets measured at fair value, on a recurring basis, are summarized below as of March 31, 2021 and 2020. There have been no changes in the valuation methodologies used at March 31, 2021 and 2020.

Money market funds (Level 1): Valued at net asset value of shares held by the funds at year-end.

Investments in equity and fixed income securities, except for bonds (Level 1): Valued at the closing price reported on the active market on which the individual securities are traded.

Bonds (Level 2): Valued based on yields currently available on comparable securities of issues with similar credit ratings.

Timber rights (Level 3): The fair value is calculated by applying a discounted cash flow approach. The valuation model considers the present value of the net cash flows expected to be generated by the asset and the risks and management costs associated with the asset.

Note 5. Timber Rights

In December 2015, the Foundation received as a donation a leasehold interest of 1,858 acres of timber rights referred to as a Timber Purchase and Cutting Agreement (the "TPC") in Northern Alabama. The TPC is a 99 year agreement that primarily gives the TPC owner the right to grow and harvest timber for 87 more years on certain properties in which the timber rights were owned by the donor. Additionally, the TPC owner also has recreational rights for the term of the agreement. The TPC owner is subject to property taxes for timber growing purposes (\$2.50 per acre), insurance costs as well as any associated management fees. There is no reforestation expense for the TPC owner during the last 24 years of the agreement, as the ownership of any acreage clear-cut during that time period will revert back to the landowner. Additionally, there is an option for the landowner to buy out the rights to the TPC from the TPC owner at the 50 and 75 year anniversaries. Additionally, if there is any land needed for mineral use by the landowner, the landowner is required to pay the TPC owner the fair market value of all standing timber as well as the value of the loss of future growing rights for the term of the use on the parcels being used.

In March 2021, the fair market value of the TPC was most recently appraised at \$2,000,000 by an independent third-party appraiser. The TPC is re-appraised every 5 years from the date of donation. In years that an appraisal is not obtained, management estimates the changes in fair market value based on current inventory estimates and market prices as received from the timber management company. Any changes in fair market value are recorded as unrealized gains or losses in the consolidated statement of activities.

Note 7. Endowment Net Assets

The Foundation's endowment consists of approximately 96 individual funds established for a variety of purposes. Its endowment includes both donor-restricted and donor-advised endowment funds. As required by generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Trustees of the Foundation has interpreted the Uniform Prudent Management of Institutional Funds Act ("UPMIFA") as requiring the preservation of the purchasing power of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as temporarily restricted net assets (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument. The donor-restricted endowment fund is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Foundation and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Foundation
- (7) The investment policies of the Foundation.

Endowment net asset composition by type of fund included \$5,675,305 donor-advised, without donor restriction funds and \$23,011,732 with donor restriction funds as of March 31, 2021 and \$3,713,744 donor-advised, without donor restriction funds and \$15,622,817 with donor restriction funds as of March 31, 2020. Changes in endowment net assets for the years ended March 31, 2021 and 2020 are as follows:

	Year Ended March 31,	
	2021	2020
Endowment net assets, beginning of year	\$ 19,336,561	\$ 18,706,499

Endowment net assets, end of year	<u>\$ 28,687,037</u>	<u>\$ 19,336,561</u>

The Foundation has adopted investment and spending policies, approved by the Board of Trustees, for endowment assets that attempt to provide a predictable stream of funding to support current and future operational needs, while seeking to maintain the purchasing power of these endowment assets over the long-term. The overall, long-term investment goal of the Foundation is to achieve an annualized total return (net of fees and expenses), through appreciation and income, greater than the rate of inflation (as measured by the Domestic Consumer Price Index) plus management fees and distribution needs, thus protecting the assets against inflation. The Foundation expects its endowment funds to provide an average rate of return of approximately 7 percent annually. Actual returns in a given year may vary from this amount dependent upon a combination of market variances and the donor's choice of investment options.

The Board of Trustees and Investment Committee believe that investing in securities with higher return expectations outweighs their short-term volatility risk. As a result, the majority of endowment assets will be invested in equity or equity-like securities. Fixed income securities will be used to lower the short-term volatility of the portfolio and to provide income stability, especially during periods of weak or negative equity markets.

The Foundation has a policy of appropriating for distribution each year a maximum of 5 percent of its endowment funds' average fair value for the previous 12 months. Although not anticipated, the Board of Trustees may modify any restrictions if such restrictions become unnecessary, incapable of fulfillment or inconsistent with the charitable needs of the community. In establishing this policy, the Foundation considered the long-term expected return on its endowment. Accordingly, over the long term, the Foundation expects the current spending policy to allow its endowment to grow at an average of 1 percent annually. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

Note 10. Concentrations of Credit Risk

The Foundation maintains its cash in bank deposit accounts. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$250,000. At March 31, 2021, the Foundation had uninsured balances in excess of these insured limits. The Foundation has not experienced any losses in such accounts. The Foundation believes it is not exposed to any significant credit risk on its bank deposits.

The Foundation holds money market funds and securities at brokerage firms that are potentially subject to credit risks. Balances are insured up to \$500,000, including a \$250,000 limit for cash, by the Securities Investor Protection Corporation ("SIPC"). At March 31, 2021, the Foundation had \$68,645,386 in excess of SIPC insured limits.

Note 11. Profit Sharing 401(k) Retirement Plan

The Foundation has a safe harbor, contributory 401(k) profit sharing plan (the "Plan") covering all full-time employees. Employees are allowed to contribute a percentage of their annual wages to the Plan, subject to certain Internal Revenue Service limitations. The Foundation contributes a safe harbor non-elective contribution of 3 percent and may make a discretionary contribution. The Foundation's total contributions to the Plan were \$15,390 and \$13,568 in 2021 and 2020, respectively.

Note 12. Liquidity and Availability

The following represents the Foundation's financial assets at March 31, 2021 and 2020:

Financial assets available to meet general expenditures over the next twelve months	\$ 1,762,657	\$ 1,646,164

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 12. Continued

The Foundation's goal is generally to maintain financial assets to meet one year of operating expenses or approximately \$1,000,000. As part of its liquidity plan, excess cash is invested in interest bearing checking and money market accounts. Although the Foundation's policies and spending methodology does not require it to spend from its liquid financial assets other than from amounts appropriated for general expenditures as part of its annual budget approval and appropriations process, financial sources to satisfy operational needs could be available, as necessary.

Note 13. Legal Settlement Income

In May 2019, the Foundation received \$4,239,913, net of expenses, under the terms of the BP Deepwater Horizon Economic and Property Settlement Program. In July 2019, the Foundation received \$101,329, net of expenses, under the terms of Halliburton Energy and Transocean Settlement Program. The proceeds are included in legal settlement income in the consolidated statement of activities for the year ended March 31, 2020.

Note 14. Risks and Uncertainties

The Foundation invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect Foundation account balances and the amounts reported in the statements of financial position.

On March 11, 2020, the World Health Organization declared the COVID-19, a novel strain of coronavirus, outbreak a pandemic. The pandemic in the United States and throughout the world has resulted in substantial volatility in financial markets. The ultimate impact on the Foundation's investment portfolio will depend on certain developments including the duration and spread of the outbreak and governmental, regulatory, and private sector responses. The full effect of the pandemic on the Foundation's investments cannot be estimated at February 11, 2022.

Note 15. Paycheck Protection Program

On April 28, 2020, the Foundation received \$85,215 in proceeds from the Paycheck Protection Program ("PPP"), a Small Business Administration ("SBA") lending program intended to assist companies in keeping their workforce employed during the COVID-19 pandemic. The Foundation elected an accounting policy to analogize ASC 958-605, *Not-for-Profit Entities – Revenue* and account for the for the PPP proceeds as a conditional contribution. Under ASC 958, a conditional contribution is recognized when the conditions for forgiveness have been substantially met or explicitly waived. On December 21, 2020, the Foundation's PPP loan plus accrued interest was forgiven in its entirety by the SBA. The Foundation recognized the forgiveness within grant revenue in the consolidated statements of activities as the legal release from the obligation indicates the Foundation complied with the conditions of the contribution.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Community Foundation for Mississippi, Inc. and Subsidiaries
Jackson, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the consolidated financial statements of Community Foundation for Mississippi, Inc. and Subsidiaries (the "Foundation"), which comprise the consolidated statement of financial position as of March 31, 2021, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated February 11, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Foundation's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Foundation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Foundation's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the consolidated financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
